

About

— since 2014 —

The beef

Only the best cuts of beef are used for our freshly minced meat every day - and it is never frozen. We attach great importance to keeping animals from the region in a species-appropriate manner under the best conditions - this is immediately noticeable in the excellent quality. The beef is prepared fresh daily - without any preservatives. Our experienced employees then shape the perfect burger patties.

The veggies

We make our veggies fresh on site. Only high-quality ingredients are used. These are selected daily by our employees and prepared with a lot of love and care. Real veggie connoisseurs immediately notice the excellent quality. And there's no question about it: you can taste it!

The buns

Only bread that doesn't go flat guarantees a real taste explosion when you bite into our burgers. The buns are therefore handmade by our own baker using the best organic ingredients, refined with butter and delivered to the restaurants fresh from the oven.

Sauces & Dressings

Fresh sauces are the be-all and end-all of true burger enthusiasts. That's why there is no industrially produced sauces. We produce these fresh in the own sauce kitchen - no compromises!

... our planet is important to us!

Because we attach great importance to sustainability, our takeaway containers are made from sugar cane. However, upon request, we also offer reusable packaging in selected restaurants. In order to keep our CO2 footprint as low as possible, we source the majority of our products from regional partners and local companies.

Special-Burger Evolution

For our 10th anniversary we have something special for you:
We're bringing back the best specials from the last few years! Look forward to your favorite burgers and enjoy the taste that has shaped our Le Burger story.

2014

The foundation stone has been laid.

The foundation was laid for today's popular concept of DIY burgers. Smash burgers that can be customized to your own taste.
